

## Understanding Your Invoice

To assist with any questions you may have regarding your invoice, the below sample explains the various sections that could appear on your invoice. The data contained in this sample is fictitious & for demonstration purposes only. It does not represent actual client data.

### STORAGE

This category covers the number of items (both item count & cubic feet) you have in storage & any new items you have added to storage during the month being invoiced.

'Item Count' is the physical amount of items you have in storage.

'Quantity' relates to the total cubic feet in storage.

'Amount' is calculated by multiplying the 'Quantity' by the 'Rate'.

Per the invoice sample:

Rate per cubic foot = £0.30

Item Count = 4,290

Cubic foot = 5,362.50

(at 1.25 cubic feet per item)

Month = June - 30 days

Amount:

£0.30 x 5,362.50 = 1,608.75

Storage charge is based on a 30 day month. Therefore, the rate varies depending on the month being invoiced.
